We Stay True to Our MathCo BASICS – Our Cultural Tenets

Building Relationships

We believe in building strong, collaborative relationships with our clients and people, as truepartners invested in their success.

Ambition & Hunger

Our drive is to achieve more in every endeavor we undertake. As Enterprise AI leaders, we arecommitted to reimagining what is possible for our clients and our people.

Simplicity

We are experts at simplifying complexity through our technology and approach. We ensure todeliver this simplicity in every experience we have with our clients and our people.

Individuals Matter

We are dedicated to creating a diverse and equal environment that benefits everyone, and wefundamentally believe in helping each other reach our full potential.

Creating Elevated Experiences

We strive to exceed expectations in every experience we deliver for our clients and our people,leveraging our expertise and technology to do so.

Speed

We value equal measures of speed and consideration when working toward an end goal. For ourclients and people, we provide tools to help them reach their goals quicker and more efficientlywithout compromising on quality.
